

Dear Massachusetts Providers,

The Massachusetts Association for Behavior Analysis (MassABA) is featuring a 2013 organization membership status for behavioral agencies and Colleges/Universities aspiring to provide additional support for the advancement of behavior analysis in the Commonwealth. The annual cost of an annual organizational membership is \$750.00 for organizations grossing \$1 million or more and \$500 for organizations gross under \$1 million.

Organizational membership includes access to three annual web based job postings, web recognition on the association website, conference program guide recognition, verbal acknowledgement at the MassABA annual conference by the President, and reserved exhibitor conference space. Organizational membership provides exposure for organizations and Colleges/Universities as supporters of MassABA.

MassABA is organized to promote increased educational professional development to behavioral professionals throughout the state. MassABA advocates for the ethical, humane and effective application of behavior analytic principles across a range of behavioral consumers and in a variety of settings. The association's goals include providing members with the highest quality continuing education, supporting networking opportunities, and promoting policies supporting behavior analysis.

Organizational applicants are subject to review by the MassABA Executive Committee and must demonstrate genuine commitment to behavior analytic principles. If you interested in becoming a MassABA organizational member, please complete the on-line organizational at [www.massaba.net](http://www.massaba.net) .

Thank you for your continued support of MassABA.

Sincerely,

---

Mariela Vargas, PsyD., BCBA-D

MassABA President
