

Behavioral Program Director

Develop and direct your own program! The Behavioral Treatment program at Braintree Manor (Braintree, MA) is residential and treatment settings for adults with neurologic and behavioral disorders. The Program Director will direct and coordinate an interdisciplinary treatment team of clinical, medical, and rehabilitation professionals toward recovery of skills of mild to severely impaired individuals. Residents typically present with a wide variety of mild to severe behavioral challenges. The Program Director will also work closely with Quality Behavioral Solutions (QBS) who provides clinical and management oversight of the program.

The Program Director is responsible for the management, coordination, and/or oversight of the program and program staff, behavioral treatment plans, program content and schedule, staff training, and any other program-related activities.

For more information or to set up an interview, please contact Dr. David Lennox at (508) 281-0246 or email at DLennox@QBSCompanies.com
